COUNTY COMMISSIONERS SUED

Criminal Warrant for Bradley and Layton Served on Monday.

MISAPPROPRIATING FUNDS CHARGED

Hearing Waived. Gave Bail for Appearance at Court.

On last Saturday Criminal Warrants were sworn out before Squire U. G. Diehl of Colerain township for the arrest of the two old County Commissioners, T. C. Bradley and Albert Layton. The arrests were made Monday of this week and the warrants were served by Austin Diehl, Constable of Colerain township. The two commissioners waived a hearing before the justice and gave bail for their appearance at court where their trial will come off next September.

The warrants recited that the two commissioners had misappropriated the County's funds, had collected for traveling and boarding without warrant.

The Gazette stated in a recent issue that the two old County Commissioners had to refund something like \$150 of the County's money which they had charged for boarding and traveling expenses. This was collected in plain violation of the law and when they were surcharged for it they paid it back. Layton paying all back, \$59.28, and Bradley paying all but \$3.75, Bradley's bill being \$91.11.

The two commissioners, Bradley and Layton collected this money on December 31, 1919 leaving it to the last day of their term and then they held a meeting, had two vouchers drawn up, Nos. 778 and 779 which may be seen at any time in the hands of the County Treasurer and read for \$91.11 for Bradley and \$59.28 for Layton signed by T. C. Bradley and Albert Layton only, Nevil Diehl not signing. The vouchers read for both alike, for "Expenses on County Business."

If Bradley and Layton are convicted of embezzlement, they may be imprisoned for a term not exceeding five years by separate or solitary confinement at labor and may be thrown out of office at the discretion of the court.

When Bradley was asked why they did not fulfill their contract and build the road contracted for in Colerain township he replied "Why didn't I get more votes in Colerain township?" So the citizens of West St. Clair and Alum Bank might know why they do not get the road they so ardently lost sleep over traveling at 1 o'clock at night to sign up. So in King and Kimmel! Why didn't Bradley get more votes out there? See? A species of intimidation! Revenge! If you voted for me, I'll get you the road. If you didn't I won't.

Hyndman, Londonderry, Harrison, Juniata, Mann's Choice, Monroe, Mann, Southampton, Bedford, Bedford Township, Cumberland Valley, Colerain, Snake Spring, West Providence, East St. Clair, King, Kimmel, Napier, Union, Lincoln, if Bradley is a candidate again you know the penalty if you do not submit.

The act of Assembly under which the indictment was issued was passed March 31, 1860, and may be found in pamphlet laws page 400, section 65 and reads as follows:

"If any state, county, township or municipal officer of this commonwealth, charged with the collection, safe keeping, transfer, or disbursement of public money, shall convert to his own use, in any way whatsoever, or shall use by way of investment in any kind of property, or merchandise, or any portion of the public money intrusted to him for collection, safe keeping, transfer, or disbursement, or shall prove a defaulter, or fail to pay over the same when thereunto legally required by the state, county or township treasurer, or other proper officer or person authorized to demand and receive the same, every such person's act shall be deemed and adjudged to be an embezzlement of so much of said money as shall be thus taken, converted, invested, used or unaccounted for, which is hereby declared a misdemeanor; and every such officer, and every person or persons whomsoever aiding or abetting, or being in any way accessory to said act, and being thereof convicted, shall be sentenced to an imprisonment, by separate or solitary confinement at labor, not exceeding five years, and to pay a fine equal to the amount of the money embezzled."

We understand that when the subject of surcharging Bradley and Layton with the amounts collected that Ralph Hoover, a county auditor and a candidate for the Legislature

wanted to allow the amounts and insisted on giving them a clear title. Auditors were concerned—but Reighard and especially W. Scott Snyder insisted on surcharging them and thus standing up for the rights of the taxpayers.

James Alexander Orris, aged 60 died suddenly of apoplexy Saturday evening in a hospital in Johnstown, Penna. Mr. Orris apparently in the best of health, was taken ill while with his wife at the Cambria theater and died on the way to the Mercy hospital, where he was taken in the police patrol.

To this union three children were born—Nellie, wife of Homer Lytle, of Altoona; Della, wife of Vance R. White, Clark street, Johnstown, and Clifford at home. Later he married Miss Martha H. Hall of Pittsburgh in the North Avenue M. E. church, North Side. Pittsburgh, the ceremony being performed by the Rev. Burr McKnight. No children survive this union. Two grandchildren, Earl Lytle and Mary Kathryn White also survive.

WORK DONE IN BEDFORD COUNTY DURING THE INFLUENZA EPIDEMIO

The Bedford County Chapter American Red Cross was fortunate enough to secure nurses throughout Bedford County for the period of three months. They rendered valuable service for help during such times is almost impossible. \$290.51 was paid out of the Treasury for the Nurses.

The following supplies were sent throughout the County to the Influenza sufferers: Pillows, pillow cases, sheets, blankets, bed spreads, quilts, nightgowns for men, women and children, bed pads, pneumonia jackets, towels, gauze masks, absorbent cotton, bandages, gauze, surgical dressings, medicine, medical attention, clothing of all kinds, food, toys, etc. for convalescent children. Clothing, shoes and knitted garments for children to go to school after they recover. Four children developed Tuberculosis from the effects of the flu and these children were given knitted garments, underclothes, stockings, shoes, wrappers and convalescent robes to enable them to go to the Tuberculosis Sanitarium.

The Red Cross workroom was open each day and several nights out of each week, making garments, etc. for this work.

Cutting Government Printing.

The Gazette commends Senator Smoot's zeal to reduce the output of Government documents which serve no useful purpose both from the standpoint of economy and as a constructive effort, to aid in relieving the paper shortage.

When Congress begins to clean its own household possibly the people will pay closer attention when the limelight is turned upon others. It can control the Congressional Record and there the desired economy should begin.

A representative in Congress decides to run for the Senate and recalls that in his long career in the House he has accomplished much for the country's good. He takes pages in the Congressional Record to call attention to his achievements and the Government pays for printing a purely personal and political document. Once having printed his alleged speech in the Congressional Record, there is a law which allows him to have thousands of copies printed at Government expense, and a little later these copies are also mailed at Government expense.

The improper use of this privilege has been so rampant and of such long standing that members have become hardened and ineffectual efforts at reform receive little or no encouragement.

H. S. CUMMINS NAMED TO PRESIDE FOR DEMOCRATS

At National Convention — Will Deliver Keynote Address At San Francisco

Homer S. Cummings, chairman of the Democratic National Committee, today was selected to preside as temporary chairman of the national convention at San Francisco, June 28, and deliver the keynote address which will enunciate the party policy in the forthcoming campaign. The convention slate was formed at a luncheon at the Inokubis Club where the Democratic leaders later listened to a speech, in which their leader sounded what they said probably would be the main points of his keynote address.

The Republican party has lost its moral character, he said, in launching a vigorous attack on the majority in Congress in defeating the peace treaty and league of nations, and particularly the method by which the control of the foreign relations committee was held by the Republicans.

"The whole fight on the league of nations dates back to a corrupt election in Michigan," he said, "and a convicted criminal is the thing on which Republican supremacy rests." He was convinced that the people of the United States want the league of nations. The Republican Congress had debated the peace treaty for eight months and had failed to pass one constructive piece of legislation. Turning to the war, he declared that "not chance, but brains, won it," and for this leadership he maintained the Democratic party was entitled to credit. "It matters not what they say of President Wilson," he added, "his fame is immortal and future generations will render tributes of praise and obligations to the great Democrat."

Relation of the Democratic women to the party, and their part in the direction of its affairs, would be decided by the San Francisco convention, the national executive committee decided today.

Plans for the convention were virtually completed today.

RICHARD PRICE

Richard Price of Spring Street, Bedford, Pa., died last Sunday evening, April 18, of diseases incident to old age. He was born in Friend's Cove, June 9, 1845 and was the son of Valentine Price and Mary Ann Price. He was married to Ruth Kelley who survives him with the following children: William A. and Mary Hoopengardner, of Bedford; Cleveland, of Bedford township; Oscar, of Hartsville, Ohio; J. Walter, Newark, N. J.; George L. Geneva, Ohio.

He is also survived by four brothers, Daniel and David, of Reynoldsdale; Valentine, of Lutzville, Rt. 1 Jacob of North Liberty, Iowa, and James of Clearville, and one sister, Mrs. Ann Swindle, of Ashcom.

The funeral was held Wednesday morning from the house at 10 o'clock and interment was made in the Bedford cemetery. Rev. A. B. Miller of the Friends Cove Lutheran church officiated. He was a member of St. Mark's Lutheran church, a supervisor of Bedford township for years and served in the Civil War belonging to Co. F, 56 Pa. Infantry. He enlisted September 30, 1864 under age and when he came out of the conflict he had 17 bullet holes in his overcoat but none went deeper than that.

CARD FROM WARREN WORTH BAILEY

To My Democratic Friends in Bedford County:

Through the courtesy of some of you in signing my nominating petition, a courtesy I keenly appreciate and which I shall endeavor to deserve, I am again in the field for the Democratic nomination for congress in the Nineteenth district.

While it was with great reluctance that I consented to the use of my name in connection with the congressional nomination, I did so at last because I felt that I owed a great deal to the people of the Nineteenth district and that I could not consistently disregard a call coming from friends who had thrice given me loyal support and who still appear to consider me worthy of their good opinion and kindly offices.

While in a sense I am being drafted into the service, I shall nevertheless give to it as keen a devotion as though I had volunteered. My Jeffersonian democracy is as thoroughgoing as it ever was and I shall endeavor with all my strength to hold the old landmarks in view and to be alive those great principles of freedom for which the party of Thomas Jefferson stood when the republic was young.

Warren Worth Bailey.

DO YOU HAVE DIZZY SPELLS?

It's Important to Learn the Cause. As Many Bedford People Have

Dizziness is never a disease of itself—it's only a symptom of some deeper-seated trouble. Much dizziness is caused by disordered kidneys failing to filter all the poisons from the blood. These poisons attack the nerves and dizziness results. If you are subject to dizziness, there is good reason to suspect your kidneys, and if you suffer backache, headache, and irregularity of the kidney secretions, you have further proof. Many Bedford people have learned the value of Doan's Kidney Pills in just such cases. Read this Bedford resident's statement:

Mrs. S. Delancy, W. Penn St., says: "Every time I have had any trouble with my kidneys I have used Doan's Kidney Pills and they have relieved me in a short time. Frequently I have had bad pains in my back and severe headaches and I would get so dizzy that the room would seem to be going around. At such times just one box of Doan's have driven the trouble away and I consider them a wonderful remedy for kidney complaint."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Delancy had. Foster—Milburn Co., Mfgs., Buffalo N. Y.

SUNDAY SCHOOL LESSON

LESSON FOR APRIL 25

RUTH'S WISE CHOICE.

LESSON TEXT—Ruth 1. GOLDEN TEXT—Thy people shall be my people and thy God my God.—Ruth 1:16

ADDITIONAL MATERIAL—Ruth 2:1-4.

PRIMARY TOPIC—The Story of Ruth. JUNIOR TOPIC—Ruth and Naomi. INTERMEDIATE AND SENIOR TOPIC—Life's Decisions. YOUNG PEOPLE AND ADULT TOPIC—The Power of Personal Influence

I. The Occasion of Ruth's Choice. (1:1-15).

On account of the famine in Bethlehem-Judea, Naomi with her husband and two sons sojourned in the land of Moab. After the death of her husband, her two sons married Moabite women. After a time her sons died also. Upon the death of her sons she resolved to return to her homeland, having heard that the Lord had visited his people in giving them bread. Her family went to Moab to escape trouble, but they only got into more trouble. It was not till Naomi was thus chastised that she resolved to return. She had the good sense to recognize that the hand of the Lord was upon her for good. Ruth and Orpah accompanied her. This she permitted, but determined to place before them frankly the difficulties which would necessarily confront them. It was this frank presentation of the difficulties and her repeated urging them to go back that furnished the occasion for Ruth's wise choice.

II. The Trials of Ruth's Choice. (v. 16-18).

Much as Naomi loved her daughters-in-law, she would not have them go into this matter blindly. She wished them to know the cost of their undertaking. She told them the worst that could come upon them, then if hardships came, they could only blame themselves.

Note the difficulties which confronted Ruth:

1. No chance to get married again. Naomi told her that she had no more sons for which she could wait. In that day to be unmarried was the greatest disgrace. Furthermore, it was against God's law for the Jews to marry outside of their own people.

2. She must renounce her gods. Her idolatrous worship could not be carried on in the land where God's people dwelt. This was delicately touched upon when Orpah went back (v. 15). Orpah went back when it was plain that there was no chance to get a husband. Now Naomi puts an additional test upon Ruth, that of giving up her religion. Naomi's very frankness in dealing with her caused Ruth to be more and more determined to cast her lot with her. No doubt she learned to love the true God through the life of this true woman. She was determined to share Naomi's journey, her home, her lodging, her lot in life and her grave in death, whatever that would be. To crown it all she would renounce her heathen gods and embrace Jehovah. When Naomi saw that Ruth's mind was fully made up she quit urging her.

III. The Glorious Issue of Ruth's Choice.

Ruth was never sorry for her choice, for:

1. She found the true God (v. 16). 2. She found human friends (ch. 2). As she went to glean in the fields she was led to the field of Boaz—a man of wealth and grace. The servants of Boaz treated her with consideration; even Boaz gave instruction for special consideration to be given her.

3. A good husband and a happy home (chaps. 3 and 4). She not only secured a husband, but a man of God, who had abundance of this world's goods.

4. An honored place in the Israelitish nation (4:13-17). Though she had to forsake her own people, she became one of a nobler people.

5. She became a link in the chain of Christ's ancestry (4:18-22; cf. Matt. 1:5). The one who fully decides for Christ and gives up all for him shall get a hundredfold in this life and in the world to come, eternal life.

This story is a fine exhibition of dispensational truth:

(1) The famine in the land indicates the testing of the Jews; (2) the going into Moab, the sojourn of the Israelites among the nations; (3) sickness and death in Moab, the chastisement of the Jews in this present age; (4) the return to the land, the gathering of Israel to their own land; (5) Ruth following the gathering of the Gentiles through the influence of the Jews; (6) the marriage between Boaz and Ruth, the union of the church with Christ.

Faith in God.

If your faith in God is stronger for every humble task in which you need and get his aid, then that humble task is necessary to the fullness of your faith in God. It will make the music of your life more firm and solid.—Philips Brooks.

Loom of Life Never Stops.

We sleep, but the loom of life never stops, and the pattern which was weaving when the sun went down is weaving when it comes up tomorrow.—Beecher.

Honor Noted Missionary.

Among the relics preserved on the
 Island of Tahiti is the burial place of
 the Rev. Henry Nott, one of the first,
 and considered the greatest, of the
 missionaries who went to the South
 seas in the early days, says the De-
 troit News. The mission sent out from
 England to Tahiti in 1796 was the first
 undertaken by the London Missionary
 society after its formation. Henry
 Nott was of the company who landed
 from the ship Duff, commanded by
 Capt. James Wilson at Matavai bay,
 Tahiti, in 1797. From that time until
 his death in 1844 he labored without
 ceasing in the island. It was his first
 translated the Scriptures directly
 from the original Hebrew and Greek
 texts into the Tahitian language.

GOVERNMENTAL AND POLITICAL

A 100 PER CENT TAX ON POLI-
 TICAL GIFTS above \$1,000 is the
 plan proposed by Senator Thomas,
 Democrat, of Colorado, as an amend-
 ment to a pending tariff measure.
 The plan would also require persons,
 firms and corporations making cam-
 paign contributions or expenditures
 to list them in their income tax re-
 turns. Senator Borah, who has re-
 cently severely criticized the alleged
 use of huge funds by Presidential
 candidates in the primary campaign
 said that he heartily favors Senator
 Thomas' proposal.

THE ADMISSION, DUTY-FREE,
 OF NEWSPRINT PAPER valued at
 eight cents or less a pound, is pro-
 vided for by a bill reported favorably
 by the Senate Finance Committee.
 The measure has been urged by many
 publishers. Under the present law
 the duty-free value is five cents or
 less.

THE UNIVERSAL TRAINING
 PLAN has apparently been abandon-
 ed. Advocates of universal training
 in the Senate have conceded their de-
 feat and have offered as a substi-
 tute a plan for volunteer training for
 all those between the ages of 18 and
 28 who desire it. Universal training
 had previously been rejected by the
 House of Representatives.

THE PEACE PLAN pending in the
 House of Representatives, by which
 it is proposed to declare by joint
 resolution an end of the war with
 Germany, appears, from a test vote
 which occurred in connection with the
 adoption of a rule limiting debate
 on the measure, to be strongly favor-
 ed, the vote for the rule being 214
 to 155. Among those voting for the
 rule were seven Democrats, one of
 whom, Representative Huddleton of
 Alabama, created a decided sensa-
 tion by a speech favoring the resolu-
 tion, in which he said in part: "The
 Treaty of Versailles is dead. So far
 as the United States is concerned it
 might as well not have been written.
 The President is in irreconcilable
 deadlock with the Senate and there
 is no hope that either will yield."

A HUGE NAVAL APPROPRIA-
 TION seems likely to be provided by
 Congress. The bill as it passed the
 House of Representatives authorized
 a total of \$424,500,000 and the Sen-
 ate Committee, before which the
 bill is now pending, is said to favor
 a further increase of \$39,000,000 in
 order to quicken naval construction
 and to provide additional funds for
 aviation purposes.

SUFFRAGE HAS FAILED IN DE-
 LAWARE and there is now much
 skepticism as to the possibility of
 ratifying the Federal suffrage amend-
 ment in time to permit the women of
 the country to participate in the Fall
 elections. The ratification of but one
 more State is needed to make the
 amendment a valid part of the United
 States Constitution, but that one
 vote seems harder to get than were
 all of the other thirty-five.

A PLAT DENIAL OF THE SIMS
 CHARGES has come from Admiral
 Rodman, who in testifying volun-
 tarily before the Senate committee
 investigating the conflicting state-
 ments made by Admiral Sims and
 Secretary of the Navy Daniels, denied
 categorically the statements of Ad-
 miral Sims to the effect that the
 United States entered the war with-
 out plans or policies, that it was un-
 prepared to fight; and that it was
 a mistake to attempt to direct naval
 operations from Washington. Admiral
 Rodman declared that never in his
 more than forty years of service had
 the fleet been in a better state of
 preparedness than in the Spring of
 1917.

Admiral H. B. Wilson, Command-
 er in Chief of the Atlantic fleet, also
 disagrees with many of Admiral
 Sims' criticisms of the Navy Depart-
 ment's conduct of the war. Before
 the Senate investigation committee
 the Admiral declared that the active
 fleet was never better prepared than
 in April 1917. He also stated that the
 Navy Department wholeheartedly
 and energetically co-operated with
 the Allies from the moment war was
 declared, and that "full and com-
 plete" plans were prepared to meet
 a German naval offensive.

ANOTHER LEAGUE - ADOPTION
 PLAN has been suggested. Senator
 Hitchcock, the Acting Democratic
 leader has predicted that the Cove-
 nant of the League of Nations will
 be separated from the Peace Treaty
 and offered in the Senate as an
 amendment to the peace resolution.
 It thus appears that the Senate may
 soon be afforded an opportunity to
 vote upon the two portions of the
 treaty separately.

THE CENTRALIA SLAYERS have
 been given 25 to 40 year prison terms.
 The seven men convicted on March
 13 of second-degree murder for the
 slaying of Warren O. Grimm, Cen-
 tralia Armistice Day parade victim,
 were sentenced to not less than
 twenty-five years nor more than forty
 years each by Judge John M. Wil-
 son after he had denied a motion for
 a new trial.

HOUSE MEMBERS PLAN A TRIP
 TO THE ORIENT. More than a hun-
 dred members of the House of Rep-
 resentatives plan to leave San Fran-
 cisco on July 5 for a two months trip
 to the Orient. The itinerary is to in-
 clude Hawaii, the Philippines, China
 and Japan. The purpose of the trip is
 reported to be, among other things,
 to study at first hand conditions hav-
 ing a bearing on legislation regard-
 ing the following matters: Statehood
 for Hawaii, independence for the
 Philippines and Chinese and Japane-
 se immigration.

Women Leaders of Nation, in Conference Indorse Interchurch World Movement Aims

Efficiency Plank in New Re- ligious Program for America and Her Missions Meets En- thusiastic Approval Throug- out Three-day Convention at Washington

The tremendous appeal made to the
 women of America by war-stricken
 children and by children in need the
 world over was illustrated recently at
 a conference of church women assem-
 bled at Washington.

That there would be much more at-
 tention to and adequate legislation
 concerning the problems of children
 has long been prophesied as a result
 of granting suffrage to women. The
 emphasis placed upon the needs of the
 little folks all over the world by these
 representative women, who came to
 Washington from every part of the
 United States, called together by the
 Interchurch World Movement, bore
 witness to the fact that American
 women are first of all maternal.

The power of women to mold public
 sentiment and, once started, to push
 through the matters closest to their
 consciences cannot be overestimated
 in these reconstruction days. In mat-
 ters at home and overseas what the
 women of this country decide must be
 done will be done not by their efforts
 alone—but by the combined efforts of
 their fathers, husbands, brothers and
 sons.

Mrs. Wilson Presides.

Answering the call to gather in
 Washington, arrangements for the con-
 ference having been made by a com-
 mittee of which Mrs. Woodrow Wilson
 is chairman, the women assembled

INTERCHURCH QUOTA IN PENNSYLVANIA IS NEAR \$33,000,000

Campaign Headquarters Estab-
 lished in Pittsburgh For
 Drive of 30 Denominations
 From April 25 to May 2

ERIE MAN AT HEAD

Pennsylvania churchmen are prepar-
 ing to launch a campaign for approx-
 imately one-tenth of the financial
 budget of \$336,777,572 to be raised
 April 25 to May 2 by the Interchurch
 World Movement of North America,
 announces religious education, \$5,
 931,925; American hospitals and
 homes, \$5,116,465; American mis-
 sions and relief, \$20,510,
 299; miscellaneous, \$8,770,927.

The national budget is divided
 roughly into seven general headings
 as follows: Foreign missions, \$107,
 661,488; Home missions, \$109,949,037;
 American education \$787,837,431; American
 ministerial pensions and relief,
 \$20,510,299; miscellaneous, \$8,770,927.
 Already thirty of the leading de-
 nominations of the country have defini-
 tely pledged themselves to the cam-
 paign and underwritten the national
 budget of promotion. Other denom-
 inations are entering daily and there
 is no doubt but that the campaign will
 be practically the greatest demonstra-
 tion of a united church movement
 which the country has ever known.

The state has been divided into five
 districts, the Eastern, Central and
 Western Pennsylvania and the metro-
 politan districts of Pittsburgh and
 Philadelphia.

Five general campaign directors
 will be associated with the state direc-
 tor, Mr. Eldredge, in the general or-
 ganization work, each having the re-
 sponsibility for one of the several
 fields into which the state has been
 divided. Charles T. Schaeffer of Phil-
 adelphia has been named as director
 of the Eastern Pennsylvania district;

Big Budget for Babies Chief Recommendation — Women in Cities Urged to Help Obtain Co-operation of Civic and Legislative Child Welfare Bodies

methods and efficiency have no charm
 for the feminine sex. Due to the
 efficiency plank in the Interchurch
 was form, first of all, the organization was
 indorsed and recommended to the
 church women of America.

Big Budget for Babies.

A big budget for babies was the first
 recommendation to the women of the
 mission boards of the churches. This
 applied especially to the children in
 the war-stricken countries, but as well
 to children in need all over the globe.
 Women were also asked to support the
 Industrial Department of the Inter-
 church World Movement and the pro-
 gram of organized motherhood for the
 children of the world. Church women
 in the various cities of the country
 were urged to assist in obtaining co-
 operation with industrial, civic and
 legislative child welfare. They were
 called upon to remember that the con-
 stant attention of every woman citizen
 is imperative for the protection of
 children.

The appeal of the children of our
 own land and those millions of others
 throughout the world left orphaned be-
 cause of war, pestilence or famine
 comes with double force to the follow-
 ers of Him who said, "Inasmuch as ye
 have done it unto the least of these ye
 have done it unto Me." And the wo-
 men of America, in indorsing the pro-
 gram of the Interchurch organization,
 have put their mother hearts behind
 the movement and added the power of
 their intelligent co-operation.

THIRTY DENOMINATIONS IN INTERCHURCH DRIVE

 church World Movement for 1920 has

 inational budgets. The budget also
 includes the state organizations of
 most of the denominations and in
 some cases the city organizations.

 notable members in the sessions were

 Mrs. A. Mitchell Palmer, Mrs.

 of Bulgaria and Mme. Marc Peter of
 Switzerland. In all there were 302
 delegates present, representing twenty-
 one denominations.

Throughout the sessions of the con-
 ference, which extended over three
 days, the enthusiastic approval of the
 aims of the Interchurch organization
 was continually evident. The fact that
 by co-ordination much more efficiency
 in working methods for all churches
 could be obtained made a very definite
 appeal. Putting churches on a more
 businesslike basis might be thought an
 odd platform upon which to unite
 women of the various denominations,

 the Interchurch World Movement fin-

Postman May Wear Overalls

Cities and towns in various sections of the country, principally along the western coast, may see overalls and "knockabouts" used as summer uniforms for letter carriers. A number of requests for this action have been filed with the Post Office Department according to a statement issued, the latest request coming from Salem, Oreg. The object is to save postal employees the expense of securing summer uniforms under present high prices.

No ruling has yet been made upon the requests, but the inclination for their consideration is favorable a high official stated.

INSECT PESTS.

Amazement is the word which correctly expresses the feeling experienced on reading in the U. S. Senate debate on the agricultural bill about the number and variety of insect pests which continually menace the fruits of the earth. Every class of crop appears to have its particular foe in the insect world.

The most notorious felons among these tiny pests appear to be the gnatcatcher, the cigarette beetle, the Argentine ant, the gypsy and brown-tail moth, the boll weevil, and the corn borer. All that the wit of man can do with the corn borer, for example, is to hold his ravages in check. To exterminate him seems quite impossible. But the most dangerous of all is the newcomer, the pink bollworm. Destructive as is the boll weevil, if you were artful enough you might circumvent him by forestalling him, and thereby save at least a certain part of the cotton crop, but once the pink bollworm gets into action the case is hopeless; his presence means neither bolls nor blooms. He threatens the whole cotton production of the United States and indirectly the cotton industry of the world.

"DON THE DENIM"

The "Don the Denim" movement originating in the South may sweep the country, especially at a time of emotional stress and strain like the present. Secretary Daniels, by his permissive order to civilians in the Navy seems to have given the campaign quasi-official endorsement.

The Gazette views the program from its comic as well as its tragic aspects. Temporarily it may work as a boycott usually does, causing both good and evil, and injuring the innocent as well as the guilty. But it cannot be anything but sporadic. It offers no permanent solution of the trouble it would end. Persons after a season of "biting their noses off to spite their heads" always get weary. The test of any course of punitive conduct, in the long run, is whether those who practice it would like to have to submit to it as victims.

D. A. R. Delegates Hold Capitol.

Despite the railroad situation, about 1,400 delegates attended the annual convention of the D. A. R. convention here. The "Daughters" swept down upon the capital wave after wave and nearly inundated the hotel accommodations. Notable among the early arrival was Mrs. George M. Minor, of Waterbury Mass., who is slated to be elected president general and Mrs. Ellison and Mrs. Wood, both candidates to be vice presidents general.

HOUSE PLANS RECESSES.

Three day recesses of the House of Representatives to start May 15, are being planned by the leaders under a gentlemen's agreement that no business will be transacted until the Senate is ready to recess for the summer. This is expected to be early in June, and under present plans the recess will continue until September 1. Three important appropriation bills are yet to be considered by the House. They are the railroad deficiency bill, the sundry civil bill, and the urgent deficiency bill.

Treasury Bond Buying to Stop July 1

Secretary Houston of the Treasury announced that Government purchase of liberty bonds in the open market except through the operation of the sinking fund will stop July 1. He stated that a beneficial effect on the market was expected to result and that the market in Government securities had already begun to right itself, and that hereafter bond quotations might be expected to trend upwards. Most of the bonds which the treasury has bought and cancelled were purchased at from 2 to 7 per cent discount.

President Suffers No Ill Effects
From Meeting

White House officials also think that the President's condition might permit him to greatly enlarge his list of callers, and that among others he might soon receive a half dozen or more of the foreign diplomats who have been waiting to formally present their credentials.

THE WORLD AT LARGE

AN ADRIATIC AGREEMENT is reported. A telegram from Trieste states that the Italo-Yugoslav Commission, which has been in consultation regarding the Italian settlement of the Adriatic ports under which Italy would obtain sovereignty over Fiume and the port of Abazija would remain Italian. The Yugoslavs, under the reported agreement, would receive Sussak, the Canale della Piumara, the Porto Baross and the port of Volosca. Gabrielle d'Annunzio, the insurgent commander at Fiume, is said to be strongly against the arrangement.

CLEMENCEAU, the ex-Premier of France, has, according to a dispatch from Cairo, been compelled by failing health to abandon his projected trip to Athens and will return at once to France. He is 79 years old. The aged statesman is suffering from bronchitis and is reported to be quite feeble.

THE STORY OF ADMIRAL KOLCHAK'S DEATH has at last come from Siberia. After his army gave way to the Russian Reds the Admiral's troops, as was previously reported, surrendered him to the Bolsheviks near Irkutsk. Then there was a rumor that the Admiral was likely to be rescued by a near-by band of Cossacks and the Bolsheviks decided to take no chances. From two American officers who were in Irkutsk at the time comes this report: At three o'clock on the morning of February 7 the Admiral was awakened and told that he would be shot at 5. He arose, dressed himself in full uniform, drank a cup of tea, and wrote two letters. At 5 o'clock he was taken out into the back yard. Asked if he wished to be blindfolded where he was stripped to the waist, he answered "No" spanned at attention, and faced his executioners—twenty riflemen. At the command they pulled the triggers and Kolchak fell to the ground, pierced by twenty bullets. The executioners were then told whom they had killed, and they cheered.

While Kolchak was successful neither as a civil administrator nor as a military leader, his integrity is unimpaired. He did his best for his country and died like a hero, and it was no fault of his that the Reds are triumphant in Russia and Siberia.

JAPANESE TROOPS have occupied Vladivostok after eight hours of severe fighting in all parts of the city and the Japanese Imperial flag is flying in place of the Russian ensign from all government buildings. All Russians have been disarmed. The purpose of this action is stated to be to protect Japanese interests, to safeguard the principal Japanese base of supplies in Siberia at Vladivostok and to ward off the threat of Bolshevikism which has been advancing towards the Pacific with the eastward movement of the Bolshevik forces through Siberia. Washington reports indicate that the American Government has not made and is not likely to make any representations against this action by Japan, such step being regarded as necessary as a measure of national defense.

GREEK TROOPS have been authorized by the Supreme Military Council of the Allies to advance in Asia Minor in anticipation of an eventual attack by Mustafa Kemal and have occupied a strategic position near Smyrna.

THE ITALIAN GOVERNMENT has decreed that, on account of the shortage of print paper, until further notice newspapers shall be restricted to two pages.

AINTA has been relieved by a French column of 3,000 which left Killis on March 24 and opened a road which has been blocked by bandits since the shooting of Americans there on February 1. Americans and Armenians were found huddled in churches fearing a massacre. All are reported safe. The casualties in the French force were two officers and two soldiers killed and one officer and twenty-one soldiers wounded.

JAPAN has informed the State Department of her adhesion to the arrangement under which bankers of the United States, Great Britain, France and that country are to enter a consortium for the financing of China. The amount of the contemplated loan is \$250,000,000, to be paid in instalments of \$50,000,000.

THE DANISH STRIKE has been called off and amnesty granted. The result is regarded as a Socialist success and is called a parallel of the anti-Kapp Labor victory in Germany. The result is the second remarkable illustration, within a few weeks of a novel use of the strike weapon. Hitherto resorted to exclusively in industrial disputes, the strike has been employed with surprising effect in two important European constitutional crises. The first was in Germany where the reactionary Government set up by the Kapp revolutionists was forced by the employment of the "general strike" to relinquish power within five days. The second was in Denmark, where the employment of the same method also brought quick success, a new ministry being secured and its first act being compliance with the Socialist demand that general amnesty be granted to all political offenders in prison.

GUATEMALA is reported to be in the grip of revolution. According to a Mexico City report a reign of terror exists in that country, scores having been killed and hundreds arrested in a revolt against President Cabrera, who is said to be endeavoring to prepare a way to escape.

Housebreaker's Guide.
A lady who lived alone had taken into her service a young girl from the country. One day both mistress and maid were going out, and in such circumstances it was usual for the key of the back door to be hidden in the garden. The hiding place had been pointed out to the girl, and when she went out she was careful to secrete the key in the place indicated, but she pinned on the door a piece of paper on which she had written, "Shall be back soon. Key under the flower-pot on the window ledge."

PALMER CAMPAIGN
IN PENNSYLVANIA

Democratic Presidential Candidate Will Tour State Before May Primary Election.

WILL GET SOLID DELEGATION

Factional Opposition to the Attorney General Has Been Reduced to the Point Where it Will Cut No Figure.

Washington.—Following a conference held here last week by the managers of the campaign of Attorney General A. Mitchell Palmer of Pennsylvania for the Democratic presidential nomination, it was announced that the outlook for the selection of the Pennsylvanian to head the ticket this year is very bright. Bruce F. Sterling of Uniontown, chairman of the committee in charge of the Pennsylvania primary contest, reported that Mr. Palmer has the backing of practically the solid Democratic party in the state and would be supported by an unbroken delegation to the San Francisco convention.

"The Democrats of our state realize they have a good chance to nominate a winning candidate for the presidency," said Chairman Sterling, "and they do not propose to overlook that chance. Factional opposition to Mr. Palmer has been reduced to the point where it will cut no figure, and we feel safe in predicting that all the 76 delegates from Pennsylvania will enthusiastically support the Attorney General's candidacy."

Hon. Charles C. Carlin, chairman of the National Palmer Primary Campaign Committee, reported that a survey of the general situation gives every encouragement to the Palmer candidacy. The Georgia situation has been smoothed out so that Mr. Palmer will be the only administration candidate to be voted on at the primaries. He will be opposed by Tom Watson and Senator Hoke Smith, both anti-administration men and neither seriously considered as a presidential possibility.

In an effort to embarrass the Palmer people anti-administrationists filed nomination papers for President Wilson, entering him as a candidate in the contest. This action was unauthorized and intended solely to make it appear that Mr. Palmer was fighting the President, under whom he serves. But the petition for the President was later withdrawn and the scheme fell flat.

Mr. Palmer will make a campaign tour of Pennsylvania before the primaries there, which take place on May 18. He expects to make a number of speeches in the state, although the demands for him from all over the country are very heavy.

The campaign for Mr. Palmer is being made solely upon his record, and in this his supporters find ample material. Few men in public life have such a notable record. Up to 1908 Mr. Palmer never had held office except as court stenographer while he pursued his law studies. In that year he was elected to Congress and was re-elected in 1910 and 1912. On October 22, 1917, he was appointed Alien Property Custodian and in that important office made an exceptional reputation. He took over and became the trust officer for more than 33,000 estates of alien enemies, aggregating a combined capital of more than \$800,000,000. The administration of this great trust cost the government only about one-seventh of 1 per cent, but in the course of his duties Mr. Palmer unearthed enough unreported and concealed income and excess profits taxes to cover the entire cost of administration and 60 per cent more.

He has been a member of the cabinet only a little more than a year, but in that period has handled some of the most important matters that ever came before the Department of Justice and handled them all successfully. He divorced the Big Five packers' trust from their unrelated lines of business and had a perpetual injunction entered against them, thus solving one of the hardest problems that the law department has contended with in years. By intervening in behalf of the public in the miners' strike he averted a national catastrophe, saved the miners and the public from tremendous losses and vindicated the supremacy of the law. And as a result the miners have just negotiated a new scale entirely satisfactory to them, thus gaining their point without the horrors of a coal famine. He has successfully combated the "red" menace in this country, putting a number of the nation's enemies into jail and deporting a shipload of undesirable aliens, with others on the way.

His record in Congress was one of distinguished achievement. He wrote the metal clause of the present Underwood tariff law. He supported and voted for the direct election of senators, woman's suffrage, the workmen's compensation act, the child labor bill, of which he was co-author; creation of a bureau of mine safety, a general pension law for veterans of the Civil War and their widows, a bill to exempt labor unions from prosecution under the anti-trust act and a great many other measures of equal importance to the people and the country. With this good material in hand the supporters of Mr. Palmer find it an easy matter to demonstrate his ability, his courage and his character.

YOUNG PIGS NEED ATTENTION

Special Care Should Be Given to Housing and Bedding—Keep Them Dry and Comfortable.

(Prepared by the United States Department of Agriculture.)

Ordinarily the fall crop of pigs is farrowed between the middle of August and the 10th of October. It is highly important that sows be well fed and carefully tended during this time, the care and management of the dams being practically the same as that followed when the spring litters are farrowed. Similarly, fall pigs, after they are weaned, should be treated the same as spring pigs, except that in many parts of the country fall pigs do not have access to green forage crops.

In the northern and colder locations, special attention should be devoted to housing and bedding the porkers, particularly the young pigs. These youngsters should never be allowed to sleep in sheds or pens where they are exposed to rain or snow, nor should they be allowed to lie on damp bedding. Supplying the fall pigs with

plenty of dry, bright, clean bedding frequently—once every two or three days if necessary—to keep the nests and beds dry and comfortable is a prerequisite of successful hog management. This point can not be over-emphasized. The young pigs delight in a warm, dry nest, and the practical hog raiser who caters to this desire is the man who usually is able to make the statement, backed up with actual figures, that there is money in producing pork.

The great danger which results from allowing the pigs to sleep in damp bedding is that the next morning they go out into the cold air, often covered with steam, and consequently are likely to contract pneumonia or other serious ailments. Dry bedding, frequent changes of litter, well-built houses, and plenty of feed of the right character are essential where the producer seeks a 100 per cent pig-raising record. Where these conditions are realized, particularly where the fall pigs are kept dry, sheltered, and well fed, it is as profitable to raise autumn porkers as it is to produce spring pigs, despite the common belief to the contrary.

BREEDING FOR BETTER SHEEP

Experiment Being Conducted on Experiment Ranch in Idaho by Department of Agriculture.

(Prepared by the United States Department of Agriculture.)

Corriedale sheep developed in Australia mainly by a Lincoln-Merino cross, are being studied by the United States department of agriculture at the government 28,000-acre sheep-experiment ranch at Dubois, Idaho. There are at present about 1,500 sheep on the project divided into various classes. Australians claim for the Corriedales better mutton form than the Merino, more weight, and yet a good fleece of about three-eighths blood quality. It is expected that the tests now being conducted by the department will eventually result in a better average sheep, as to mutton carcass, than the breeds now on the market. The breed was introduced to this country by the federal department, but since that time many large private importations have been made. Part of the sheep on the Dubois range are being kept as straight Corriedales, while others are being crossed with American crossbreds.

Don't neglect the salt box in the pasture.

A field of soy beans may be harvested successfully with lambs.

A young sow like other animals when young, should not be bred too young.

No one can state definitely the amount to feed a pig. The feeder himself must be the judge.

Silage furnishes a uniform quality of feed and puts bloom and good coats on live stock in winter.

Thirteenth-Century Costumes.
There was very little difference in the dress of the noble and working classes, writes Mellicent Stone, in "The Bankside Costume Book for Children," referring to women's dress in the thirteenth century. Working women sometimes wore hoods, and a wimple which seems to have been in one piece and knotted on one side of the head, having long, hanging ends. Young girls wore loose hair, or had the head covered with a small piece of stuff, the hair being rolled up into projecting knobs over the ears, and the corners of the stuff twisted over these, hiding the hair. Tunics were long, but were often turned up at the bottom for about eight inches, fastened at intervals with some sort of pin, and showing a short underskirt (probably this was an under-tunic, but a petticoat will do as well). Sometimes the tunic was turned back over the knees. Shoes would be like the men's.

Covering the Pergola.
Apple and pear trees are sometimes used to cover the pergola; they are grown as cordons and, in this case, the foundation must be of curved iron rods. These pergolas are lovely in the spring time, when they become a perfect mass of blossom and they form a good entrance to the kitchen garden. Sometimes pergolas are covered with laburnum or lime trees; a good example of the latter being the walk which incloses the sunk garden in Kensington gardens, where one passes through a tunnel of greenery in the form of a square, the lime being trained over curved iron supports, while at intervals windows are cut in that side of the pergola which overlooks the garden. This walk is, indeed, less a pergola than a return to the pleached alley of olden times, and it is a refreshing thing to find in the midst of a great city—London Letter to Christian Science Monitor.

Just Where and How Is the Money to be Spent?

A businesslike Answer to a businesslike Question

THIRTY denominations cooperating in the Interchurch World Movement have budgeted their needs. No business could have done it more scientifically.

They have united to prevent the possibility of duplication or waste. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

Each denomination has arranged its budget under six main heads:

1 FOR THE CHURCH'S WORK AT HOME. A score of times some under this head. Consider only one. Five and a half million people in the United States cannot even read and write the English language. Who is to carry forward this vast work of Americanization if the church does not?

2 FOR HOSPITALS AND HOMES. Every year thousands of men and women seriously ill are turned away from Church hospitals because of lack of room. The children's homes are compelled to turn away more children than they can receive.

3 FOR HIGHER EDUCATION. Of the 450,000 American students in institutions of higher grade, one-half are in institutions founded and supported by the Churches. Many of these institutions have had no great endowment campaigns, but their needs are just as pressing as the needs of larger schools; and you have only to read their list of alumni and alumnae to measure the value of their contribution to America.

4 FOR RELIGIOUS TRAINING. At least 12,000,000 children and young people under 25 years of age are entering American life without any religious training at all. Remembering the faith of Washington and Lincoln, do you think that America will continue to produce Washingtons and Lincolns if faith dies out of the hearts of its youth?

5 FOR THE CHURCH'S WORK ABROAD. Influenza came first from the Orient thirty years ago; nearly all plagues are Oriental plagues. So long as China has only one physician to every 400,000 people the Orient will continue to be a menace. So long as one-third of the babies of India die before their second year our own babies are not safe. A Christian doctor or teacher sent abroad is working for America as truly as though he worked at home.

6 PREACHERS' SALARIES. The preacher is called the "forgotten man," and well he may be. Eight out of ten preachers are paid less than \$20 a week!

Each denomination has its own detailed budget, and will administer its own funds. Your pastor has copies of the budget; examine them for yourself. In the week of April 25th-May 2nd you will be given your opportunity to help. You can do it with the full satisfaction of knowing that every dollar of your gift has its post assigned to it in advance.

Every dollar for better America and a better world. When your church calls on you give—and give with your heart as well as your pocket-book.

Honoring French Soldiers
Of the methods of honoring soldiers for distinguished service on the field of battle, the "fourragers" conferred upon the crack regiments of France is one of the most original. It consists of a colored cord ending in a brass tag, the name being derived from the French word for a tethering rope for horses. Every officer and man in a regiment rewarded for gallantry in action by the fourragers has the right to wear this cord round the left shoulder. There are two classes of the distinction, one having green and red cord to correspond with the croix de guerre, and the other being in green and yellow, on the lines of the rare medaille militaire.

Don't blame your wife for not thinking as fast as she can talk. She can't do it.

Flanders.
The Flemish form of the name Flanders is Vlaenderen, and the word means the country of the Flemish. The Flanders of the middle ages was a self-governing countship—that is, a country whose ruler was a count; but at times it was under the suzerainty of France, and sometimes under that of the empire which then included the German states. The Flanders of the middle ages is today divided between France and Belgium, the greater part being included in Belgium, and two provinces in the western part of the latter country are known as East and West Flanders, the latter fronting on the North sea. Practically all the country that formed the Flanders of the middle ages is low and level; hence it was commonly called the Low Country.

How to Save Butter.
"Carelessness about butter is a common American sin against thrift. In nearly every family some member has the habit of taking huge helpings of butter which he or she does not use. The remedy is simple. Cut slices of the oblong pound of butter a quarter of an inch thick, and cut each slice into four pieces. When the butter is served, each member of the family take one small piece at a time. It sounds like a small economy, but it is one which careful city housewives have practiced for years.—Farm and Fireside.

PROBIC ISPAHAN.
One of the most tenacious landmarks of greatness is the mosque college at Isphahan, Persia. Here wise men and students come to occupy little cells and ponder on the complexities of Mohammedan culture. In its first years the college attracted men of such distinction that the titled lady who endowed it considered it a privilege to come each week with her court attendants and cart away the laundry of the learned men. Unfortunately the popularity of the college waned possibly due to the fact that the titled lady eventually ceased managing the college wash. The only place in Isphahan where affairs of today thrust themselves forward is the bazaar. It is not a romantic bazaar, compared to others of the East. Any reasonable desire can be fulfilled in the Isphahan shopping district. To buy a toothbrush or tencup from a turbaned salesman, and in proximity to an evil-eyed camel is an interesting, sometimes an exciting experiment.

ORGANIZED LABOR

AN UNAUTHORIZED STRIKE of railroad employees, which started in Chicago several days ago over the discharge of a yard conductor, quickly spread in that city to such an extent as to affect twenty-five railroads, throw more than 50,000 men out of work either directly or indirectly, and menace the city's food supply. Later the strike movement extended to Kansas City, Buffalo and other cities of the Middle West and finally it spread throughout the whole country, reaching New York, Los Angeles and other cities on both coasts. Unheralded and unexpected it reached out from city to city, the switchmen and other railroad employees deserting their posts without warning, in many cases while traffic was at its height, leaving many thousands of travelers stranded wherever their trains happened to be. The secrecy with which the strike plans were carried out seems to indicate that organized labor has evolved a new scheme providing for the calling of strikes in such manner as to make it impossible to head them off by means of injunctions.

GOMPERS sounded a note of warning, at a recent luncheon of editors of New York trade and technical journals, to employers disposed to hinder the development of the American Federation of Labor. He described the organization of which he is President as a "bulwark of Americanism" and said that employers must choose between the present policies of organized labor and the control of trade unions taken over by those "who are without respect for labor, for employers, for the public or even for the Government of the United States."

KANSAS LABOR LEADERS face trial for contempt of court on account of their having, as it is charged, deliberately failed to appear in response to a summons issued by the new Court of Industrial Relations in connection with a strike of certain mine workers. President Alexander Howat and four other officials of District No. 14 of the United Mine Workers of America are involved.

A TENANTS' DEFENSE UNION is a naval project which is about to be put into effect by the occupants of apartment houses in certain congested sections of New York City, following the securing from the State Legislature of stringent legislation limiting rent increases and providing special remedies against ejectment. Some of the purposes of this new union which is expected to have a

membership of at least \$500,000 are stated to be as follows:

Co-operation with all trade unions. Persons living in houses where rent "strikes" are called and refusing to join the strikers to be disciplined "just like the men who refuse to go out when a strike is called in a shop."

An appeal to be made to the Governor for special housing legislation to be recommended by the new organization, such legislation to include classification of dwellings as public utilities and to place them under the direction of a commission endowed with great powers.

SUFFRAGE

We note that Attorney General Allen of Massachusetts has ruled that the women of that commonwealth cannot vote at the next election unless the state constitution has been amended to that effect or the Federal amendment ratified even though Massachusetts has cast its vote for ratification. This is a reasonable decision against which no complaint can be brought by the most ardent supporter of woman suffrage. The Federal amendment has been ratified by a number of states which have not admitted women to the ballot.

Federal ratification in season for the election is still in doubt. To most women there appears to be no chance in Delaware, the legislature having closed its special session. The governors of Vermont and Connecticut remain obdurate to the plans for extra sessions. Tennessee cannot get around the state law which requires the intervention of an election between a regular and special session. Thus the case comes up to North Carolina, which has been indicated as offering a good chance for the casting of the thirty-sixth and deciding vote.
